

Neuren (NEU) – ASX Announcement

16 May 2024

Neuren CEO to present at BIO and Jefferies conferences in the US

Melbourne, Australia: Neuren Pharmaceuticals (ASX: NEU) today announced its participation in two upcoming events in June 2024: the Bio International Convention in San Diego and the Jefferies Global Healthcare Conference in New York City. Neuren’s CEO, Jon Pilcher, will present at the Bio International Convention on Tuesday 4 June, at 11:30am PDT and at the Jefferies Global Healthcare Conference on Thursday 6 June, at 10:30am EDT.

About Neuren

Neuren is developing new drug therapies to treat multiple serious neurological disorders that emerge in early childhood and have no or limited approved treatment options. Recognising the urgent unmet need, all programs have been granted “orphan drug” designation in the United States. Orphan drug designation provides incentives to encourage development of therapies for rare and serious diseases.

DAYBUE™ (trofinetide) is approved by the US Food and Drug Administration (FDA) for the treatment of Rett syndrome in adult and pediatric patients two years of age and older. Neuren has granted an exclusive worldwide licence to Acadia Pharmaceuticals Inc. for the development and commercialisation of trofinetide.

Neuren’s second drug candidate, NNZ-2591, is in Phase 2 development for each of Phelan-McDermid syndrome, Angelman syndrome, Pitt Hopkins syndrome and Prader-Willi syndrome.
